

Fact Sheet

THEME Demonstrating the Love of Christ to Our Community

MISSION Sharefest highlights and encourages the community service work of churches to join a unified effort of demonstrating the love of

Christ to our community. Churches are asked to select a work project of their choice and serve in a coordinated one-day event together with other congregations across the Tulsa Metro area. The ShareFest experience is meant to glorify God by serving the needs of our community-blessing neighborhoods, families, schools, and other special groups.

PURPOSE Sharefest is designed to 1) meet real needs of the community, 2) demonstrate the love of Jesus Christ in practical, tangible ways, and 3) build relationships among church and community leaders to serve more effectively.

PROCESS Churches attend information luncheons, join the team, make their service commitment, coordinate their project, join in celebration with all the other churches once the outreach is completed, and continue to follow up and build relationships with those they served for years to come.

PARTNERS This collaborative event partners churches, agencies, businesses, city leaders, schools, universities, neighborhood associations, foundations, civic leaders, and individuals.

CELEBRATE Sunday, Nov 8 (the day after serving) churches will join together in a community-wide service of praise and worship to celebrate God's love and the results of the service projects. Needs of city leaders, families & children will be lifted up in prayer.
